The authors of this paper wish to note the work of two additional members of the CORC team; Andy Fugard and Emily Stapley, who originally analysed the CORC data set using funnel plots. Details of this analysis and suggestions for possible reasons for outliers are considered in a forthcoming paper: Fugard A, Stapley E, Ford T, Law D, Wolpert M, York A. Analysing and reporting UK CAMHS outcomes: an application of funnel plots (currently under review).
