Contents

Editorial

- 2 A scholarly discipline comes of age *D P Stevens*

Original research

- 3 Effectiveness of patient safety training in equipping medical students to recognise safety hazards and propose robust interventions
L W Hall, S D Scott, K R Cox, J W Gosbee, B J Boshard, K Moylan, K C Dellsperger
- 9 The hospital standardised mortality ratio: a powerful tool for Dutch hospitals to assess their quality of care? *B Jarman, D Pieter, A A van der Veen, R B Kool, P Aylin, A Bottle, G P Westert, S Jones*
- 14 Health service accreditation as a predictor of clinical and organisational performance: a blinded, random, stratified study *J Braithwaite, D Greenfield, J Westbrook, M Pawsey, M Westbrook, R Gibberd, J Naylor, S Nathan, M Robinson, B Runciman, M Jackson, J Travaglia, B Johnston, D Yen, H McDonald, L Low, S Redman, B Johnson, A Corbett, D Hennessy, J Clark, J Lancaster*
- 22 Using a clinical decision support system to determine the quality of antimicrobial dosing in intensive care patients with renal insufficiency
P J Helmons, R J Grouls, A N Roos, A J Bindels, S J Wessels-Basten, E W Ackerman, E H Korsten
- 27 Quality improvement capacity: a survey of hospital quality managers *A R Gagliardi, C Majewski, J C Victor, G R Baker*
- 31 Evidence-based commissioning: using population impact measures to help primary care trusts estimate the benefit of interventions in diabetes and heart failure *D T Spence, G Bandesha, S Horsley, R F Heller*

February 2010 Volume 19 Issue 1

Error management

- 37 If only . . . : failed, missed and absent error recovery opportunities in medication errors
M M P Habraken, T W van der Schaaf
- 42 Patient safety research: an overview of the global evidence *A K Jha, N Prasopa-Plaizier, I Larizgoitia, D W Bates, On Behalf of the Research Priority Setting Working Group of the WHO World Alliance for Patient Safety*
- 48 Measures of patient safety in developing and emerging countries: a review of the literature
K B Carpenter, M A Duevel, P W Lee, A W Wu, D W Bates, W B Runciman, G R Baker, I Larizgoitia, W B Weeks, on behalf of the Methods & Measures Working Group of the WHO World Alliance for Patient Safety
- 55 A comparison of voluntarily reported medication errors in intensive care and general care units
S L Kane-Gill, J G Kowiatek, R J Weber
- 60 Teamwork behaviours and errors during neonatal resuscitation *A L Williams, R E Lasky, J L Dannemiller, A M Andrei, E J Thomas*
- 65 Do pre-existing complications affect the failure to rescue quality measures? *J P Moriarty, D M Finnie, M G Johnson, J M Huddleston, J M Naessens*
- 69 Promoting patient safety through prospective risk identification: example from peri-operative care *A Smith, M Boulton, I Woods, S Johnson*
- 74 How will it work? A qualitative study of strategic stakeholders' accounts of a patient safety initiative *M Dixon-Woods, C Tarrant, J Willars, A Suokas*
