

Contents

October 2010 Volume 19 Supplement 3

Introduction

- i1** Towards a safer healthcare system *K Henriksen, S Albolino*

Original research

- i3** Partial truths in the pursuit of patient safety
K Henriksen
- i8** Patient safety and incident reporting: survey of Italian healthcare workers *S Albolino, R Tartaglia, T Bellandi, A M Vincenza Amicosante, E Bianchini, A Biggeri*
- i13** A pragmatics' view of patient identification
V Lichtner, J R Galliers, S Wilson
- i20** Incidence and types of non-ideal care events in an emergency department *K K Hall, S M Schenkel, J M Hirshon, Y Xiao, G A Noskin*
- i26** Transitions from neonatal intensive care unit to ambulatory care: description and evaluation of the proactive risk assessment process
V A Moyer, H Singh, K L Finkel, A P Giardino
- i31** Discrepancies between medication orders and infusion pump programming in a paediatric intensive care unit *R A Russell, K Murkowski, M C Scanlon*
- i36** Coping with different roles in intensive care nursing: design implications for digital support
M Melles, A Freudenthal, A Bouwman, C Snijders, H de Ridder
- i42** Simulation and patient safety: evaluative checklists for central venous catheter insertion
L V Evans, K L Dodge
- i47** Simulation, safety and surgery *R Kneebone*
- i53** Detecting breaches in defensive barriers using in situ simulation for obstetric emergencies
W Riley, S Davis, K M Miller, H Hansen, R M Sweet
- i57** A new way of relating: perceptions associated with a team-based error disclosure simulation intervention *L Jeffs, S Espin, S E Shannon, W Levinson, M K Kohn, L Lingard*
- i61** Considerations for the design of safe and effective consumer health IT applications in the home *T Zayas-Cabán, B E Dixon*
- i68** A new sociotechnical model for studying health information technology in complex adaptive healthcare systems *D F Sittig, H Singh*
- i75** A comparative study of safety climate differences in healthcare and the petroleum industry *E Olsen, K Aase*
