Contents

Editorials
162 A protocol for the reduction of surgical errors S Bann, A Darzi
163 Creating a “no blame” culture: have we got the balance right? M Walton
165 What matters more in patient care? Giving doctors shorter hours of work or a good night’s sleep? J Firth-Cozens, H Cording
166 Knowledge and action in stroke—are either good enough? K M McPherson, P Kersten

Commentaries
169 Flexible rather than standardised approaches to communicating risks in health care A Edwards
170 Safety from numbers: identifying drug related morbidity using electronic records in primary care G Elwyn

Original articles
172 Patients’ problems with new medication for chronic conditions N Barber, J Parsons, S Clifford, R Darracott, R Horne
176 Comparison of two methods of presenting risk information to patients about the side effects of medicines P Knapp, D K Raynor, D C Berry
181 Indicators for preventable drug related morbidity: application in primary care C J Morris, S Rodgers, V S Hammersley, A J Avery, J A Cantrill
186 Improving prescribing using a rule based prescribing system C Anton, P G Nightingale, A Adu, G Lipkin, R E Fennell
191 Will changes in primary care improve health outcomes? Modelling the impact of financial incentives introduced to improve quality of care in the UK P McElduff, G Lyatapaoulos, R Edwards, R F Heller, P Shekelle, M Roland
198 Comparison of health care professionals’ self-assessments of standards of care and patients’ opinions on the care they received in hospital: observational study P Durieux, A Bissery, S Dubois, I Gasquet, J Coste

Quality improvement report
203 Effect of a scoring system and protocol for sedation on duration of patients’ need for ventilator support in a surgical intensive care unit G Brattebø, D Hofoss, H Flaatten, A K Muri, S Gjerde, P E Plesk

Organisational matters
206 Assessing risk: the role of probabilistic risk assessment (PRA) in patient safety improvement J Wreathall, C Nemeth
213 Organisational change theory and the use of indicators in general practice M Rhydderch, G Elwyn, M Marshall, R Grol

Education and training
218 Clinicians, librarians and patient safety: opportunities for partnership L Zipperer

Developing research
223 The problem of appraising qualitative research M Dixon-Woods, R L Shaw, S Agarwal, J A Smith

World view
226 How safe is the safety paradigm? O A Arah, N S Klazinga

Heroes and martyrs of quality and safety
233 Ignaz Semmelweis and the birth of infection control M Best, D Neuhauser

JournalScan
235 Compiled by T Smith

PostScript
239 Book reviews

Miscellanea
168 Echo: Stroke: getting patients to hospital quicker
171 Echo: Surgical quality: review of Californian measures
238 Echo: Risk of infant death or stillbirth does not change with distance to hospital
