Editorials

- 74 Will the future continue to repeat the past?
S J Woodward
- 75 Can quality improvement be used to change
the wider healthcare system? *N Edwards*

Commentaries

- 76 Who is responsible for the safety of infusion
devices? It's high time for action! *K Taxis*
- 77 Impact of reporting hospital performance
M N Marshall, P S Romano
- 78 Are the risks of hospital practice adequately
recognised by incident reporting? *G Neale*

Original articles

- 80 Insights from the sharp end of intravenous
medication errors: implications for infusion
pump technology *M Husch, C Sullivan,
D Rooney, C Barnard, M Fotis, J Clarke,
G Noskin*
- 87 Relationship between accreditation scores
and the public disclosure of accreditation
reports: a cross sectional study *H Ito,
H Sugawara*
- 93 Use of a systematic risk analysis method to
improve safety in the production of
paediatric parenteral nutrition solutions
*P Bonnabry, L Cingria, F Sadeghipour,
H Ing, C Fonzo-Christe, R E Pfister*
- 99 Pursuing integration of performance
measures into electronic medical records:
beta-adrenergic receptor antagonist
medications *M Weiner, T E Stump,
C M Callahan, J N Lewis, C J McDonald*
- 107 Effect on the process of care of an active
strategy to implement clinical guidelines on
physiotherapy for low back pain: a cluster
randomised controlled trial *G E Bekkering,
H J M Hendriks, M W van Tulder, D L Knol,
M Hooijenbos, R A B Oostendorp, L M Bouter*

- 113 Do split-side rails present an increased risk to
patient safety? *S Hignett, P Griffiths*
- 117 Relationship between tort claims and
patient incident reports in the Veterans
Health Administration *J M Schmidek,
W B Weeks*

Quality improvement report

- 123 A web-based incident reporting system and
multidisciplinary collaborative projects for
patient safety in a Japanese hospital
K Nakajima, Y Kurata, H Takeda

Developing research and practice

- 130 "Going solid": a model of system dynamics
and consequences for patient safety *R Cook,
J Rasmussen*

World view

- 135 Implementing a national strategy for patient
safety: lessons from the National Health
Service in England *R Q Lewis, M Fletcher*

Heroes and martyrs of quality and safety

- 140 Pasteur and parachutes: when statistical
process control is better than a randomized
controlled trial *M Diaz, D Neuhauser*

Effectiveness bulletin

- 144 Effective health care: management of head
and neck cancers *R Collins, A Flynn,
A Melville, R Richardson, A Eastwood*
