

## Contents

### Editorial

- 154** How do we know? *D P Stevens*

### Commentary

- 156** Mountains in the clouds: patient safety research *D W Bates*

### Developing research and practice

- 158** An epistemology of patient safety research: a framework for study design and interpretation. Part 1. Conceptualising and developing interventions *C Brown, T Hofer, A Johal, R Thomson, J Nicholl, B D Franklin, R J Lilford*
- 163** An epistemology of patient safety research: a framework for study design and interpretation. Part 2. Study design *C Brown, T Hofer, A Johal, R Thomson, J Nicholl, B D Franklin, R J Lilford*
- 170** An epistemology of patient safety research: a framework for study design and interpretation. Part 3. End points and measurement *C Brown, T Hofer, A Johal, R Thomson, J Nicholl, B D Franklin, R J Lilford*
- 178** An epistemology of patient safety research: a framework for study design and interpretation. Part 4. One size does not fit all *C Brown, T Hofer, A Johal, R Thomson, J Nicholl, B D Franklin, R J Lilford*
- 182** When should measures be updated? Development of a conceptual framework for maintenance of quality-of-care measures *S Matthe*

### Original article

- 187** Assessing the professional performance of UK doctors: an evaluation of the utility of the General Medical Council patient and colleague questionnaires *J L Campbell, S H Richards, A Dickens, M Greco, A Narayanan, S Brearley*

### Error management

- 194** Testing process errors and their harms and consequences reported from family medicine practices: a study of the American Academy of Family Physicians National Research Network *J Hickner, D G Graham, N C Elder, E Brandt, C B Emsermann, S Dovey, R Phillips*
- 201** Mitigation of patient harm from testing errors in family medicine offices: a report from the American Academy of Family Physicians National Research Network *D G Graham, D G M Harris, N C Elder, C B Emsermann, E Brandt, E W Staton, J Hickner*
- 209** What can we learn about patient safety from information sources within an acute hospital: a step on the ladder of integrated risk management? *H Hogan, S Olsen, S Scobie, E Chapman, R Sachs, M McKee, C Vincent, R Thomson*
- 216** The incidence and nature of in-hospital adverse events: a systematic review *E N de Vries, M A Ramrattan, S M Smorenburg, D J Gouma, M A Boermeester*

### Abstracts

- 224** 13th international scientific symposium on improving quality and value in healthcare, Orlando, Florida, USA
