

Contents

Editorial

- 242** On acquiring a socially transmitted discovery (STD) in Berlin—and Paris, and Prague
D P Stevens

Commentaries

- 244** Improving clinical handovers: creating local solutions for a global problem *J K Johnson, V M Arora*
- 246** Improvement education by improving education: a model for integration of teaching, learning and research while practice is improved
B Andersson-Gäre

Education and training

- 248** What are covering doctors told about their patients? Analysis of sign-out among internal medicine house staff *L I Horwitz, T Moin, H M Krumholz, L Wang, E H Bradley*
- 256** Resilience in healthcare and clinical handover
S A Jeffcott, J E Ibrahim, P A Cameron
- 261** Use of strategies from high-reliability organisations to the patient hand-off by resident physicians: practical implications
I Philibert
- 267** “There is a chain of Chinese whispers ...”: empirical data support the call to formally teach handover to prequalification doctors
J A Cleland, S Ross, S C Miller, R Patey
- 272** Improving measurement in clinical handover
S A Jeffcott, S M Evans, P A Cameron, G S M Chin, J E Ibrahim
- 278** An educational improvement project to track patient encounters: toward a more complete understanding of third-year medical students’ experiences *K G Hoffman, M D Griggs, C A Kerber, M Wakefield, E Garrett, C Kersten, M C Hosokawa, L A Headrick*

August 2009 Volume 18 Issue 4

- 283** How an educational improvement project improved the summative evaluation of medical students *K G Hoffman, R Margaret A Brown, J W Gay, L A Headrick*

Error management

- 288** Survey evaluation of the National Patient Safety Agency’s Root Cause Analysis training programme in England and Wales: knowledge, beliefs and reported practices *L M Wallace, P Spurgeon, S Adams, L Earl, J Bayley*
- 292** Measuring patient safety culture: an assessment of the clustering of responses at unit level and hospital level *M Smits, C Wagner, P Spreeuwenberg, G van der Wal, P P Groenewegen*
- 297** Adverse events and potentially preventable deaths in Dutch hospitals: results of a retrospective patient record review study *M Zegers, M C de Bruijne, C Wagner, L H F Hoonhout, R Waaijman, M Smits, F A G Hout, L Zwaan, I Christiaans-Dingelhoff, D R M Timmermans, P P Groenewegen, G van der Wal*
- 303** Application of AHRQ patient safety indicators to English hospital data *A Bottle, P Aylin*

Quality improvement report

- 309** A decision-tree model to estimate the impact on cost-effectiveness of a venous thromboembolism prophylaxis guideline
A Ferrando, E Pagano, L Scaglione, M Petrinco, D Gregori, G Ciccone
- 314** Clinical pathways as a healthcare tool: design, implementation and assessment of a clinical pathway for lower-extremity deep venous thrombosis *A Verdú, A Maestre, P López, V Gil, A Martín-Hidalgo, J A Castaño*
