### Contents

#### Editorial
469 Navigating a revision D P Stevens

#### Commentaries
471 Creating a more efficient healthcare knowledge market: using communities of practice to create checklists A Ladduck, B Pentvroyt
473 The state of science surrounding the clinical microsystem: a hedgehog or a fox? J E Johnson

#### Original research
475 Measuring quality in the therapeutic relationship—Part 1: objective approaches T Greenhalgh, I Heath
479 Measuring quality in the therapeutic relationship—Part 2: subjective approaches T Greenhalgh, I Heath
484 The quality of cancer patient experience: perspectives of patients, family members, providers and experts E W Waggon, E J Aichel Bunka, S M Gunn, T Teas, C J Wise, K Kotlieb, S B Clause
490 Improvement leaders: what do they and should they do? A summary of a review of research overview
493 The published literature on handoffs in hospitals: deficiencies identified in an extensive review M D Cohen, P B Hilligoss

#### Development and evaluation of an implementation strategy for the German guideline on community-acquired pneumonia M Schuete, T Meyer, N Senyurek, H Kopec, T Wild, T Schraube, the CAPSTEN study group

514 How “should” we write guideline recommendations? Interpretation of deontic terminology in clinical practice guidelines: survey of the health services community B A Leman, G Mikkel, Z Liu, R N Shiffman

518 Evidence in action—guidelines directing workload A Spiegel, E Kasile, T Tale, M Kehoe

519 Quality measures for primary mental healthcare: a multistakeholder, multidisciplinary Canadian consensus F Wroblewski, B J Black, D Ash, W Jones, D Halonen, K Hamill

526 Preventing harms and improving healthcare quality through system redesign W A Nelson, P B Grisdale, E Shulman, M E Hyland

#### December 2010 Volume 19 Issue 6

**Quality improvement report**
531 Medication reconciliation in the emergency department: opportunities for workflow redesign J H Mussel, P C Evans, H Lle

532 Improving management of oesophageal varices in patients with cirrhosis R Wandel, R Alper, J Sandford, A Wigg

**Education and training**
542 The WHO patient safety curriculum guide for medical schools M Wilcock, H Weise, S van Staa, G R Lewis, F Ganes, D Neble, B Elia, J Devoldere, B Balsam, for on behalf of the Expert Group convened by the World Alliance of Patient Safety, as Expert Lead for the Sub-Programme

**Error management**

555 The Rhode Island ICU collaborative: a model for reducing central line-associated bloodstream infection and ventilator-associated pneumonia statewide V A DePalo, L McNaul, M Correll, J H Kach, L Adams, P J Pronovost

562 Checking it twice: an evaluation of checklists for detecting medication errors at the bedside using a chemotherapy model R J Wise, P J Trivich, A C Easty, P Savage, R Trip, S Hyland

568 Adverse events and comparison of systematic and voluntary reporting from a paediatric intensive care unit R Silas, J Tibballs

572 The Turkish version of the safety attitudes questionnaire: psychometric properties and baseline data T Kayci, S Banyasi, B Karabudak

578 The development and psychometric evaluation of a safety climate measure for primary care C de Wit, W Jansen, R van Maan, P Johnson, P Beric

585 Patient safety culture: factors that influence clinician involvement in patient safety behaviours J C Wakefield, M J McLean, M Whitby, I Paton

Contents

Original research

e1 ‘Quod scripsit, scripsit.’ The quality of the report of telephone consultations at Dutch out-of-hours centres H Derks, J F Reitsma, A Muïjtjens, B Maiburg, R Winkel, H van Ruyven, A Knetscherus

e3 Experience: the most critical factor in choosing after-hours medical care H Philips, D Mahr, R Remmen, M Weverbergh, D De Graeve, P Van Royen

e4 Are patients and healthcare providers satisfied with health sector reform implemented in family health centres? M A Gaddadlah, M F Allam, A M A Ahmed, E M El-Shabrawy

e5 Quantifying variation of paediatric length of stay among intensive care units in Australia and New Zealand I Steaney, A Clements, J Alexander, A Slater, for the ANZICS Paediatric Study Group

e6 Relationship between patients’ and clinicians’ assessments of health status before and after knee arthroplasty E Breen, S C Channer, B Cliff, D Murray, N Black

e7 Healthcare workers’ self-reported effect of an intervention programme on knowledge and behaviour related to infection control C Trede, G Bielchowsky

e8 Perceptions among Swedish hospital physicians on prescribing of antibiotics and antibiotic resistance I Björkman, J Berg, M Ring, M Ertell, C S Lundberg

e9 The Patients Preferences Questionnaire for Angina treatment: results and psychometrics from 383 patients in primary care in England A Bowling, R Reeves, C Rowe

e10 A comparative analysis of incident reporting lag times in academic medical centres in Japan and the USA S E Regehr-Bogden, M Hirvonen, Y Imanaka, E-H Oh, H Fukuda, A A Gawned, T Takemura, Y Yoshikawa

e11 Responding to patient safety incidents: the “seven pillars” T B McDonald, L A Helsheen, K M Smith, N Centomani, Acondition, D Mayer, W H Chamberlin

e12 Acute care practices relevant to quality end-of-life care: a survey of Pennsylvania hospitals C Y Lin, R M Arnold, J R Love, D C Angus, A E Barnato

e13 Efficacy and efficiency of a lean cataract pathway: a comparative study E J van Vliet, W Sermeus, C M van Gaalen, J C A Sol, J M H Visser

e14 Barriers to reporting medication errors: a measurement equivalence perspective J M Eshagharay, T Throckmorton

e15 Overcoming barriers to guideline implementation: the case of cardiac rehabilitation R S Fernandez, P Davidson, R Griffiths, Y Salamonsen

e16 The importance of experienced adverse outcomes on patients’ future choice of a hospital for surgery P J Marang-van de Mheen, J Dijs-Eltinga, W Otten, M Versluis, H J Smets, W J van der Made, R Vree, J Kievit

e17 Crude versus case-mix-adjusted control charts for safety monitoring in thyroid surgery A Daculsi, N Veisin, S Tansey, P Saardo, A-M Schott, C Colin, J-J Peix, J-C Lefante

e18 Evaluating the effectiveness of an educational and feedback intervention aimed at improving consideration of sex differences in guideline development D G Keuten, J A Haatjens, J Mohr, N S Klazinga, P J E Brandels

e19 Taking a closer look: using statistical process control to identify patterns of improvement in a quality-improvement collaborative T Timmerman, T Verrall, L Clancy, H Klomp, G Toye

e20 Surgical adverse outcome reporting as part of routine clinical care J Beb, M Krabbe, P J Marang-van de Mheen

e21 Application of root cause analysis on malpractice claim files related to diagnostic failures I van Noord, M P Eekens, A M Hamersma, M C de Bruijne

e23 Application of the ICF to referral delay in total joint arthroplasty D Dixon, B Pollard, D Bowerly, M Johnston

e24 Impact of sample size on variation of adverse events and preventable adverse events: systematic review on epidemiology and contributing factors C Lessing, A Schmitz, B Aliferis, M Schrepp

e25 Teamwork training with nursing and medical students: does the method matter? Results of an institutional, interdisciplinary collaboration C Holgado, G Sterner, K Fresh, D Holler, L Maynard, B Foster, S Sewing, D Woodyard, C Durham, M Wright, J Taekman, on behalf of the Interprofessional Patient Safety Education Collaborative

e26 Comparison of methods for identifying patients at risk of medication-related harm J E van Dermaat, M K Remmers, J G W Kestelink, J M Tepe-Twiss, F M Haaijer-Rustamp, P G M Meel

e27 Outcomes of classroom-based team training interventions for multiprofessional hospital staff. A systematic review L I Rabel, D Ostergaard, T Mogensen

e28 The nature and usefulness of patient experience information in producing guidance about interventional procedures B Campbell, E Chambers, M Kelon, S Bennett, G Lyra, Lzouloulou

e29 Assessing and improving teamwork in cardiac surgery J M Schraagen, T Schooten, M Smit, F Haas, M van der Beek, J van der Ven, P Rasch

e30 Medication errors in paediatric outpatients R Kasaholt, D A Goldmann, C A Keukens, E L Abramson, S Wofch, C Veen, K Zigmond, D W Bates

e31 Optimal search filters for detecting quality improvement studies in Medline N L Wilczynski, B R Haynes, for the QH Hedges Team

e32 Real-time operational feedback: daily discharge rate as a novel hospital efficiency metric: H J Wong, R C Wu, M CaoNER, A D prevailing, D Mora

e33 Speaking up about safety concerns: multi-setting qualitative study of patients’ views and experiences V A Entwistle, D A Caughan, I S Warr, Y Birks, J Hall, M Peat, B Williams, J Wright, for the PIPS (Patient Involvement in Patient Safety) group

e34 How different are complications that affect the older adult inpatient? D Rewell, H S Nghiem, C Jorm, T J Jackson

e35 Development of a computerised user interface; ADES, to identify patients at risk for an adverse drug event M K Roovers, M H Zeegers, P A De Clercq, M L Bouvy, P H E M de Meijer, J M Tepe-Twiss, H J Guchelaar

e36 The impact of shift patterns on junior doctors’ perceptions of fatigue, training, work/life balance and the role of social support M Brown, P Tucker, F Rapport, H Hutchings, A Dohlgren, G Davies, P Ehler
