

THE UNACCEPTABLE FACE OF SCIENCE

Fraud exists, both in academic medical research and in drug trials in general practice. This important new book sets out the evidence, reviewing events since 1975 when the first notorious case of fraud became public knowledge.

The problem is viewed from many perspectives, with contributions from a general practitioner, head of an academic unit, contract research company director, statistician, editor and lawyer. Together, their information provides a compelling account of the extent to which fraud and misconduct have been and continue to be practised in medicine.

Contents include:

- Fraud in general practice
- Statistical aspects of detection
- The British Pharmaceutical Industry's response
- Legal aspects
- The French scene
- The Danish scene
- Data audits in trials and their implications for misconduct (USA)
- Fraud and the editor

Fraud and Misconduct in Medical Research is a valuable practical text for all researchers – and ultimately anyone who practises medicine.

BMJ

PUBLISHING GROUP

**2nd edition
June 1992**

Rights and Responsibilities provides a practical guide to the law as it affects doctors. It aims to cover the main areas that are of interest and concern to most doctors. Designed as a handbook, the style affords easy access to individual topics and

offers succinct but comprehensive advice. As well as doctors, medical students, health service administrators, lawyers with an interest in medical law, local authority officers, and others with an interest in the legal aspects of medicine will find this book invaluable.

UK £10.95; Abroad £13.00 (BMA members £9.95 or £12.00) including postage, by air abroad.

Please enclose payment with order or send full details of American Express, Mastercard or VISA credit card.

Available from: **BRITISH MEDICAL JOURNAL**, PO Box 295, London WC1H 9TE, major medical booksellers or the BMJ bookshop in BMA House.
