

## Contents

June 2013 Volume 22 Issue 6

### Commentary

- 449** Creating new realities in healthcare: the status of simulation-based training as a patient safety improvement strategy *E Salas, J T Paige, M A Rosen*

### Viewpoint

- 453** Unannounced in situ simulations: integrating training and clinical practice *S T Walker, N Sevdalis, A McKay, S Lambden, S Gautama, R Aggarwal, C Vincent*

### Original research

- 459** Leaders' and followers' individual experiences during the early phase of simulation-based team training: an exploratory study *L Meurling, L Hedman, L Felländer-Tsai, C-J Wallin*
- 468** In situ simulation: detection of safety threats and teamwork training in a high risk emergency department *M D Patterson, G L Geis, R A Falcone, T LeMaster, R L Wears*
- 478** Contextual information influences diagnosis accuracy and decision making in simulated emergency medicine emergencies *A P McRobert, J Causer, J Vassiliadis, L Watterson, J Kwan, M A Williams*

- 485** Systematic simulation-based team training in a Swedish intensive care unit: a diverse response among critical care professions *L Meurling, L Hedman, C Sandahl, L Felländer-Tsai, C-J Wallin*

- 495** Simulation training for improving the quality of care for older people: an independent evaluation of an innovative programme for inter-professional education *A J Ross, J E Anderson, N Kodate, L Thomas, K Thompson, B Thomas, S Key, H Jensen, R Schiff, P Jaye*

- 507** High-reliability emergency response teams in the hospital: improving quality and safety using in situ simulation training *D S Wheeler, G Geis, E H Mack, T LeMaster, M D Patterson*

### Innovations in education

- 516** Errors as allies: error management training in health professions education *A King, M G Holder Jr, R A Ahmed*

### Miscellaneous

- 520** Correction
