

Contents

Editorials

- 965** The Hawthorne effect in measurements of hand hygiene compliance: a definite problem, but also an opportunity *S Haessler*
- 968** Less is not always more: embracing (appropriate) medical intensity *L G Burke, A K Jha*

Viewpoint

- 970** Why Lean doesn't work for everyone *G S Kaplan, S H Patterson, J M Ching, C C Blackmore*

Original research

- 974** Quantification of the Hawthorne effect in hand hygiene compliance monitoring using an electronic monitoring system: a retrospective cohort study *J A Srigley, C D Furness, G R Baker, M Gardam*
-  
- 981** Outcomes in patients with heart failure treated in hospitals with varying admission rates: population-based cohort study *R S Bhatia, P C Austin, T A Stukel, M J Schull, A Chong, J V Tu, D S Lee*
- 
- 989** Read-back improves information transfer in simulated clinical crises *M Boyd, D Cumin, B Lombard, J Torrie, N Civil, J Weller*
- 994** Cost and turn-around time display decreases inpatient ordering of reference laboratory tests: a time series *D Z Fang, G Sran, D Gessner, P D Loftus, A Folkins, J Y Christopher III, L Shieh*
- 1001** Insights from staff nurses and managers on unit-specific nursing performance dashboards: a qualitative study *L Jeffs, S Beswick, J Lo, Y Lai, A Chhun, H Campbell*
- 1007** Creating spaces in intensive care for safe communication: a video-reflexive ethnographic study *Su-yin Hor, R Iedema, E Manias*
- 1014** Personalised physician learning intervention to improve hypertension and lipid control: randomised trial comparing two methods of physician profiling *P J O'Connor, D J Magid, J M Sperl-Hillen, D W Price, S E Asche, W A Rush, H L Ekstrom, D W Brand, H M Tavel, O V Godlevsky, P E Johnson, K L Margolis*

BMJ Quality & Safety is co-owned by the Health Foundation and is an official journal of the National Patient Safety Foundation

December 2014 Volume 23 Issue 12

- 1023** Exploring new avenues to assess the sharp end of patient safety: an analysis of nationally aggregated peer review data *D W Meeks, A N D Meyer, B Rose, Y N Walker, H Singh*

Systematic review

- 1031** A systematic review of behavioural marker systems in healthcare: what do we know about their attributes, validity and application? *A S Dietz, P J Pronovost, K N Benson, P A Mendez-Tellez, C Dwyer, R Wyskiel, M A Rosen*

Research and reporting methodology

- 1040** Designing quality improvement initiatives: the action effect method, a structured approach to identifying and articulating programme theory *J E Reed, C McNicholas, T Woodcock, L Issen, D Bell*
- 

Correspondence

- 1050** The bad apple theory won't work: response to 'Challenging the systems approach: why adverse event rates are not improving' by Dr Levitt *S W A Dekker, N G Leveson*
- 1051** Challenging the systems approach: why adverse event rates are not improving *P Levitt*

Electronic pages

- e2** A multifaceted intervention to improve sepsis management in general hospital wards with evaluation using segmented regression of interrupted time series *C A Marwick, B Guthrie, J E C Pringle, J M M Evans, D Nathwani, P T Donnan, P G Davey*
- e3** An intervention to improve transitions from NICU to ambulatory care: quasi-experimental study *V A Moyer, L-A Papile, E Eichenwald, A P Giardino, M M Khan, H Singh*
