

Contents

May 2017 Volume 26 Issue 5

Editorials

- 347** Extended opening hours in primary care: helpful for patients and—or—a distraction for health professionals? *R Baker, N Walker*
- 350** Root-cause analysis: swatting at mosquitoes versus draining the swamp *P Trbovich, K G Shojania*
- 354** Clinical summaries for hospitalised patients: time for higher standards *S Kripalani*
- 357** Responding to the challenge of look-alike, sound-alike drug names *P L Trbovich, S Hyland*

Original research

- 360** Extended opening hours and patient experience of general practice in England: multilevel regression analysis of a national patient survey *T E Cowling, M Harris, A Majeed*
- 372** Opportunities to improve clinical summaries for patients at hospital discharge *E Sarzynski, H Hashmi, J Subramanian, L Fitzpatrick, M Polverento, M Simmons, K Brooks, C Given*
- 381** Our current approach to root cause analysis: is it contributing to our failure to improve patient safety? *K M Kellogg, Z Hettinger, M Shah, R L Wears, C R Sellers, M Squires, R J Fairbanks*
- 388** Six ways not to improve patient flow: a qualitative study *S A Kreindler*

- 395** Cognitive tests predict real-world errors: the relationship between drug name confusion rates in laboratory-based memory and perception tests and corresponding error rates in large pharmacy chains *S R Schroeder, M M Salomon, W L Galanter, G D Schiff, A J Vaida, M J Gaunt, M L Bryson, C Rash, S Falck, B L Lambert*
- 408** Reviewing deaths in British and US hospitals: a study of two scales for assessing preventability *S Manaseki-Holland, R J Lilford, J R B Bishop, A J Girling, Y-F Chen, P J Chilton, T P Hofer, The UK Case Note Review Group*

The problem with...

- 417** The problem with root cause analysis *M F Peerally, S Carr, J Waring, M Dixon-Woods*

Viewpoint

- 423** Estimating deaths due to medical error: the ongoing controversy and why it matters *K G Shojania, M Dixon-Woods*

Correction

- 429** Erratum: *Computerised prescribing for safer medication ordering: still a work in progress*

Abstracts

- 430** Abstracts
