

Contents

Editorials

- 947** Medication reconciliation: ineffective or hard to implement? *E Etchells, O Fernandes*
- 950** Mortality alerts, actions taken and declining mortality: true effect or regression to the mean? *P J Marang-van de Mheen, G A Abel, K G Shojania*

Original research

- 954** Effects of a multifaceted medication reconciliation quality improvement intervention on patient safety: final results of the MARQUIS study
J L Schnipper, A Mixon, J Stein, T B Wetterneck, P J Kaboli, S Mueller, S Labonville, J A Minahan, E Burdick, E J Orav, J Goldstein, N V Nolido, S Kripalani
- 965** Investigating the association of alerts from a national mortality surveillance system with subsequent hospital mortality in England: an interrupted time series analysis *E Cecil, A Bottle, A Esmail, S Wilkinson, C Vincent, P P Aylin*
- 974** National hospital mortality surveillance system: a descriptive analysis *E Cecil, S Wilkinson, A Bottle, A Esmail, C Vincent, P P Aylin*

December 2018 Volume 27 Issue 12

- 982** Incidence and trends of central line associated pneumothorax using radiograph report text search versus administrative database codes *M Reeson, A Forster, C van Walraven*
- 989** Self-management capability in patients with long-term conditions is associated with reduced healthcare utilisation across a whole health economy: cross-sectional analysis of electronic health records
I Barker, A Steventon, R Williamson, S R Deeny
- 1000** Developing a hospital-wide quality and safety dashboard: a qualitative research study
A M J W M Weggelaar-Jansen, D S E Broekharst, M de Bruijne

Quality improvement report

- 1008** Variable effectiveness of stepwise implementation of nudge-type interventions to improve provider compliance with intraoperative low tidal volume ventilation *V N O'Reilly-Shah, G S Easton, C S Jabaley, G C Lynde*

Narrative review

- 1019** Transforming concepts in patient safety: a progress report *T K Gandhi, G S Kaplan, L Leape, D M Berwick, S Edgman-Levitan, A Edmondson, G S Meyer, D Michaels, J M Morath, C Vincent, R Wachter*
