

Contents

Editorial

- 583** Thoughtless design of the electronic health record drives overuse, but purposeful design can nudge improved patient care *V M Vaughn, J A Linder*

Original research

- 587** Impact of order set design on urine culturing practices at an academic medical centre emergency department *S Munigala, R R Jackups, R F Poirier, S Y Liang, H Wood, S R Jafarzadeh, D K Warren*
- 593** Implementation of a colour-coded universal protocol safety initiative in Guatemala *B M Taicher, S Tew, L Figueroa, F Hernandez, S S Ross, H E Rice*
- 600** Performance of statistical process control methods for regional surgical site infection surveillance: a 10-year multicentre pilot study *A W Baker, S Haridy, J Salem, I Ilies, A O Ergai, A Samareh, N Andrianas, J C Benneyan, D J Sexton, D J Anderson*
- 611** Reorganisation of stroke care and impact on mortality in patients admitted during weekends: a national descriptive study based on administrative data *V Balinskaite, A Bottle, L J Shaw, A Majeed, P Aylin*
- 619** Ratings game: an analysis of Nursing Home Compare and Yelp ratings *K Johari, C Kellogg, K Vazquez, K Irvine, A Rahman, S Enguidanos*
- 625** Measurement of harms in community care: a qualitative study of use of the NHS Safety Thermometer *L Brewster, C Tarrant, J Willars, N Armstrong*
- 633** Successfully reducing newborn asphyxia in the labour unit in a large academic medical centre: a quality improvement project using statistical process control *R v B Hollesen, R L R Johansen, C Rørbye, L Munk, P Barker, A Kjaerbye-Thygesen*

August 2018 Volume 27 Issue 8

- 643** Patient experience of general practice and use of emergency hospital services in England: regression analysis of national cross-sectional time series data *T E Cowling, A Majeed, M J Harris*
- 655** Task errors by emergency physicians are associated with interruptions, multitasking, fatigue and working memory capacity: a prospective, direct observation study *J I Westbrook, M Z Raban, S R Walter, H Douglas*

Research and reporting methodology

- 664** Ethical implications of excessive cluster sizes in cluster randomised trials *K Hemming, M Taljaard, G Forbes, S M Eldridge, C Weijer*

Electronic pages

- e1** Identifying vendors in studies of electronic health records: the editor replies *K G Shojania*
- e2** Problems with discharge summaries produced by electronic health records: why are the vendors not named? *W J O'Donnell*
- e3** Questions regarding the authors' conclusions about the lack of change in Hospital Survey on Patient Safety Culture (HSOPS) scores related to reduction of hospital-acquired infections *J R Campione, N D Yount, J Sorra*
- e4** On being human: reflections on a daily error *E C K Wong*
- e5** Roadmap for improving the accuracy of respiratory rate measurements *N Keshvani, K Berger, O K Nguyen, A N Makam*
- e6** Correction
