

Contents

Editorials

- 1 EHR-related alert fatigue: minimal progress to date, but much more can be done *T H Payne*
- 3 Scaffolding our systems? Patients and families 'reaching in' as a source of healthcare resilience *J K O'Hara, K Aase, J Waring*
- 7 Virtual postoperative clinic: can we push virtual postoperative care further upstream? *D Cornejo-Palma, D R Urbach*

Original research

- 10  Impact of a national QI programme on reducing electronic health record notifications to clinicians *T Shah, S Patel-Teague, L Kroupa, A N D Meyer, H Singh*
- 15  Patient participation in inpatient ward rounds on acute inpatient medical wards: a descriptive study *B Redley, L McTier, M Botti, A Hutchinson, H Newnham, D Campbell, T Bucknall*
- 24  Virtual outpatient clinic as an alternative to an actual clinic visit after surgical discharge: a randomised controlled trial *P Healy, L McCrone, R Tully, E Flannery, A Flynn, C Cahir, M Arumugasamy, T Walsh*
- 32 Standardisation of perioperative urinary catheter use to reduce postsurgical urinary tract infection: an interrupted time series study *M Sadeghi, J A Leis, C Laflamme, D Sparkes, W Ditrani, A Watamaniuk, R Taggar, F Jinnah, M Avanes, M Vearncombe, A B Nathens*

January 2019 Volume 28 Issue 1

- 39 Speaking up about patient safety concerns: the influence of safety management approaches and climate on nurses' willingness to speak up *C W Alingh, J D H van Wijngaarden, K van de Voorde, J Paauwe, R Huijsman*
- 49 Rate of avoidable deaths in a Norwegian hospital trust as judged by retrospective chart review *T Rogne, T Nordseth, G Marhaug, E M Berg, A Tromsdal, O Sæther, S Givold, P Hatlen, H Hogan, E Solligård*
- 56  Michigan Appropriate Perioperative (MAP) criteria for urinary catheter use in common general and orthopaedic surgeries: results obtained using the RAND/UCLA Appropriateness Method *J Meddings, T A Skolarus, K E Fowler, S J Bernstein, J B Dimick, J D Mann, S Saint*

Research and reporting methodology

- 67  Addressing the challenges of knowledge co-production in quality improvement: learning from the implementation of the researcher-in-residence model *C Vindrola-Padros, L Eyre, H Baxter, H Cramer, B George, L Wye, N J Fulop, M Utley, N Phillips, P Brindle, M Marshall*

Systematic review

- 74  Characteristics of healthcare organisations struggling to improve quality: results from a systematic review of qualitative studies *V M Vaughn, S Saint, S L Krein, J H Forman, J Meddings, J Ameling, S Winter, W Townsend, V Chopra*
