

Contents

Editorials

- 859** Language, culture and preventable readmissions: pragmatic, intervention studies needed *E C Khoong, A Fernandez*
- 862** Connecting simulation and quality improvement: how can healthcare simulation really improve patient care? *V Brazil, E I Purdy, K Bajaj*

Original research

- 866** Association between cultural factors and readmissions: the mediating effect of hospital discharge practices and care-transition preparedness *N Rayan-Gharra, R D Balicer, B Tadmor, E Shadmi*
- 875** Patients' perspective on how to improve the care of people with chronic conditions in France: a citizen science study within the ComPaRe e-cohort *V-T Tran, C Riveros, C Péan, A Czarnobroda, P Ravaud*
- 887** Can a patient-directed video improve inpatient advance care planning? A prospective pre-post cohort study *R Nair, S A Kohen*
- 894** Putting out fires: a qualitative study exploring the use of patient complaints to drive improvement at three academic hospitals *J J Liu, L Rotteau, C M Bell, K G Shojania*
- 901** Home care nursing after elective vascular surgery: an opportunity to reduce emergency department visits and hospital readmission *C de Mestral, A Kayssi, M Al-Omran, K Salata, M A Hussain, G Roche-Nagle*
- 908** Automated detection of wrong-drug prescribing errors *B L Lambert, W Galanter, K L Liu, S Falck, G Schiff, C Rash-Foanio, K Schmidt, N Shrestha, A J Vaida, M J Gaunt*

November 2019 Volume 28 Issue 11

- 916** Nursing roles for in-hospital cardiac arrest response: higher versus lower performing hospitals *T C Guetterman, J E Kellenberg, S L Krein, M Harrod, J L Lehrich, T J Iwashyna, S L Kronick, S Girotra, P S Chan, B K Nallamothu*

Innovations in Education

- 925** Validity evidence for Quality Improvement Knowledge Application Tool Revised (QIKAT-R) scores: consequences of rater number and type using neurology cases *C Kassardjian, Y S Park, S Braksick, J Cutsforth-Gregory, C Robertson, N Young, A Leep Hunderfund*
- 934** Patient safety superheroes in training: using a comic book to teach patient safety to residents *T C Maatman, H Prigmore, J S Williams, K E Fletcher*

Quality improvement report

- 939** Reducing door-to-needle times in stroke thrombolysis to 13 min through protocol revision and simulation training: a quality improvement project in a Norwegian stroke centre *S C Ajmi, R Advani, L Fjetland, K D Kurz, T Lindner, S A Qvindesland, H Ersdal, M Goyal, J T Kvaløy, M Kurz*

Quality & safety in the literature

- 949** Quality and safety in the literature: November 2019 *A Gupta, J Meddings, N Houchens*

Electronic pages

- e1** Inter-hospital transfer and patient outcomes: a retrospective cohort study *S Mueller, J Zheng, E J Orav, J L Schnipper*
- e2** Correction: *Local emergency medical response after a terrorist attack in Norway: a qualitative study*
