

Contents

Editorials

- 441** Inappropriate ED visits: patient responsibility or an attribution bias? *K Chaiyachati, S Kangovi*
- 443** Emergency department shifts and decision to admit: is there a lever to pull to address crowding? *E L Aaronson, B J Yun*
- 446** Applying rigour to the interpretation of surgical site infection rates *V Williams, J A Leis*

Original research

- 449** Factors associated with inappropriate use of emergency departments: findings from a cross-sectional national study in France *D Naouri, G Ranchon, A Vuagnat, J Schmidt, C El Khoury, Y Yordanov, On behalf of French Society of Emergency Medicine*
- 465** Later emergency provider shift hour is associated with increased risk of admission: a retrospective cohort study *P D Tyler, A Fossa, J W Joseph, L D Sanchez*
- 472** Large-scale empirical optimisation of statistical control charts to detect clinically relevant increases in surgical site infection rates *I Ilies, D J Anderson, J Salem, A W Baker, M Jacobsen, J C Benneyan*

June 2020 Volume 29 Issue 6

- 482** Why colorectal screening fails to achieve the uptake rates of breast and cervical cancer screening: a comparative qualitative study *M Kotzur, C McCowan, S Macdonald, S Wyke, L Gatting, C Campbell, D Weller, E Crighton, R J C Steele, K A Robb*
- 491** Using standardised patients to assess the quality of medical records: an application and evidence from rural China *Y Wu, H Zhou, X Ma, Y Shi, H Xue, C Zhou, H Yi, A Medina, J Li, S Sylvia*
- 499** A mixed methods study examining teamwork shared mental models of interprofessional teams during hospital discharge *K Manges, P S Groves, A Farag, R Peterson, J Harton, S R Greysen*
- 509** Quality of care for acute abdominal pain in children *Y Zurynski, K Churruca, G Arnolda, S Dalton, H P Ting, P D Hibbert, C Molloy, L K Wiles, C de Wet, J Braithwaite*

Short reports

- 517** Use of optimised dual statistical process control charts for early detection of surgical site infection outbreaks *A W Baker, N Nehls, I Ilies, J C Benneyan, D J Anderson*
- 521** When evidence says no: gynaecologists' reasons for (not) recommending ineffective ovarian cancer screening *O Wegwarth, N Pashayan*
