Crisis checklists in emergency medicine: another step forward for cognitive aids

Y-Y Chen, A Arriaga

Timely testing: who needs to do what differently to improve adherence to guideline-recommended glycaemic monitoring?

S McHugh, K O'Neill, P M Kearney

Medical crisis checklists in the emergency department: a simulation-based multi-institutional randomised controlled trial

E Dryver, J Lundager Forberg, C Hård af Segerstad, W D Dupont, A Bergenfelz, U Ekelund

Adherence to guideline-recommended HbA1c testing frequency and better outcomes in patients with type 2 diabetes: a 5-year retrospective cohort study in Australian general practice

C Imai, L Li, R-A Hardie, A Georgiou

Use of telecritical care for family visitation to ICU during the COVID-19 pandemic: an interview study and sentiment analysis

F Sasangohar, A Dhala, F Zheng, N Ahmadi, B Kash, F Masud

International recommendations for a vascular access minimum dataset: a Delphi consensus-building study

“It’s not just hacking for the sake of it”: a qualitative study of health innovators’ views on patient-driven open innovations, quality and safety

L Rivard, P Lehoux, H Alami

Trauma Resuscitation Using in situ Simulation Team Training (TRUST) study: latent safety threat evaluation using framework analysis and video review

A Petrosoniak, M Fan, C M Hicks, K White, M McGowan, D Campbell, P Trbovich

Factors influencing physician responsiveness to nurse-initiated communication: a qualitative study

M Manojlovich, M Harrod, T Hofer, M Lafferty, M McBratnie, S L Krein

Association between paediatric intraoperative anaesthesia handover and adverse postoperative outcomes

T Kannampallil, D Lew, E E Pfeifer, A Sharma, J Abraham
