

### Editorials

- 61** Impact of medical education on patient safety: finding the signal through the noise *J Hwang, R Kelz*
- 65** Top-down and bottom-up approaches to low-value care *A M Patey, C Soong*
- 69** 'Show me the data!' Using time series to display performance data for hospital boards *C Soong, C M Bell, P Blackstien-Hirsch*
- 73** Monitoring patients' sexual orientation and gender identity: Can we ask? Should we ask? How do we ask? *K Almack*

### Viewpoint

- 76** You can lead clinicians to water, but you can't make them drink: the role of tailoring in clinical performance feedback to improve care quality *L Desveaux, Z R S Rosenberg-Yunger, N Ivers*

### Original research

- 81**  National improvements in resident physician-reported patient safety after limiting first-year resident physicians' extended duration work shifts: a pooled analysis of prospective cohort studies *M D Weaver, C P Landrigan, J P Sullivan, C S O'Brien, S Qadri, N Vijayan, C A Czeisler, L K Barger*
- 90**  Evaluation of the NHS England evidence-based interventions programme: a difference-in-difference analysis *M Anderson, A Molloy, L Maynou, I Kyriopoulos, A McGuire, E Mossialos*
- 100**  Retrospective evaluation of an intervention based on training sessions to increase the use of control charts in hospitals *L Kudrna, P Bird, K Hemming, L Quinn, K Schmidtke, R Lilford*
- 109**   Communication about sexual orientation and gender between clinicians, LGBT+ people facing serious illness and their significant others: a qualitative interview study of experiences, preferences and recommendations *D Braybrook, K Bristowe, L Timmins, A Roach, E Day, P Clift, R Rose, S Marshall, K Johnson, K E Sleeman, R Harding*
